RE: Aquatic Effects Monitoring Program 2013 Annual Report

Dear Ms. Nicol,

Snap Lake Environmental Monitoring Agency (SLEMA) has reviewed the following sections of the Aquatic Effects Monitoring Program 2013 Annual Report.

- Section 2. Site Characterization and Supporting Environmental Variables, and
- Section 3. Water Quality.

There are inconsistent descriptions about the effect of spills on the aquatic environment in the Plain Language Summary (page i) and Section 2.4.1.1 (page 2-12). Clarification is requested.

Water Quality Section is satisfactory, and no concerns are raised. All recommendations in this Section are supported.

If you have any questions whatsoever please feel free to contact the undersigned or Philippe di Pizzo at 867-765-0961 / exec@slema.ca.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Weyallon', on a light blue background.

Johnny Weyallon
