

**GENERAL INSTRUCTIONS FOR EXCEL TEMPLATE:**

1. Do not leave blank rows above or between comments.
2. Do not modify or delete the instructions or the column headings (*i.e.* the grey areas).
3. Each comment must have an associated topic and recommendation.
4. All formatting (*i.e.* bullets) will be lost when this file is uploaded to the Online Comment Table.
5. If necessary, adjust the cell width and height in order to view all text.
6. Cutting and pasting comments from WORD documents cannot include hard returns (spaces between paragraphs).
7. If you would like to create paragraphs within a single cell, please use a proper carriage return (ALT & ENTER).

| <b><u>TOPIC</u></b>   | <b><u>COMMENT</u></b>  | <b><u>RECOMMENDATION</u></b>  |
|---|--|---|
| <i>Be as specific as you think is appropriate; for example a section or page of the document, a recommendation #, general comment, etc.</i> | <i>Comments should contain all the information needed for the proponent and the Board to understand the rationale for the accompanying recommendation.</i>   | <i>Recommendations can be for the proponent or for the Board. Recommendations should be as specific as possible, relating the issues raised in the "comment" column to an action that you believe is necessary.</i> |
| List of Tables, page ii   | There is not Table 13-1 but Table 12-1.  | Update is requested.  |
| List of Figures, page ii  | The List of Figures is not updated: Figure 5-2 is removed in Section 5 but still in the List.  | Update is requested.  |
| Figures 2-2, 2-3, 6-2, 7-1  | Added figures (Figures 2-2, 2-3, 6-2, 7-1) and updated Figure 5-1 are helpful for reviewers to better understand the mine rock management, and the efforts are appreciated.  |   |
| Section 6, Table 12-1   | The simplified geochemical classification criteria for granite will simplify the mine rock management, however, granite diluted with minor amounts of kimberlite, PK, or metavolcanic rock used for general site construction may have potential acid leachate issues. | Instead of for general site construction, diluted granite is preferred for the North Pile construction.   |
