Re: Waste Management Plan - Hazardous Waste Containment Facility

Dear Mr. Casas,

Snap Lake Environmental Monitoring Agency (SLEMA) reviewed related documents about the above subject, and would like to provide the following comments.

No major concerns are raised for the design of the Hazardous Waste Containment Facilities. However, SLEMA has a concern on the on-site disposal of hydrocarbon contaminated rocks within the North Pile. Enclosed please find the attached Comment Table for detailed comments.

If you have any questions whatsoever, please feel free to contact Philippe di Pizzo at 867-765-0961 / exec@slema.ca.

Sincerely,

Arnold Enge
