AEMP 2016, Plain Language Summary, page vi	It is stated in line 3 to 4 that the fish tasting program will be done again in two to three years, depending on the status of the Mine. The statement is not consistent with the ENR Minister decision with regards to Environmental Agreement Reporting, dated July 15, 2016. In page 2 of the decision letter, he stated that "I do accept a reduction in the frequency of the activity to a two-year cycle for the time being. Thus, the Fish Tasting event will occur in 2016 and 2018, and its feasibility will continue to be assessed in future years."	Clarification is requested.
AEMP 2016, Section 3 Water Quality	No concerns are raised.	
AEMP 2016, Sections 4 to 10 (Sediment Quality, Toxicity, Plankton, Benthic Invertebrate Community, Fish Tissue Chemistry, Fish Community Monitoring)	No comments could be provided at this time.
